Souheil Charef Khoudja

WEB DEVELOPER · WEBSITES, WEB APPS AND AUTOMATION

I design, build and ship complete websites and business tools, from the first layout to the live link. In 2026 I delivered more than 25 projects for restaurants and e-commerce brands: premium bilingual restaurant sites, order-management apps, a chatbot, reporting automation and a lead-generation engine. I work with modern stacks and AI coding agents, which lets me turn a brief into a finished, mobile-ready product in days.

SELECTED WORK

Premium restaurant websites

CATANIA · 2026

Design proposals for Sapio (one Michelin star), Street 54 and Maccarruni

- Designed and built one-page, bilingual sites with a film hero, a 3D gallery, tasting menus, press and reviews, each themed from the restaurant's own decor.
- Built a generator that turns a restaurant's public listings into a finished, phone-ready site, with structured data and link previews for search.

Nutsa: e-commerce operations suite

2026

Next.js 15 · TypeScript · Supabase · Tailwind · Vercel

- Order-confirmation web app for call agents: secure login, one-tap calling, and automatic hand-off of confirmed orders to the delivery carriers.
- Client follow-up app for field workers, with an admin dashboard that cross-checks call logs against reported activity.
- Instagram direct-message bot that answers customers automatically, and product landing pages for several markets.

PoP'Way: restaurant reporting and food cost

2026

Python · Firebird SQL · Google Sheets and Apps Script

- Automated a daily sales report: reads the point-of-sale database, joins supplier receipts from Google Sheets, and emails the owners an HTML summary with a CSV.
- Built a food-cost calculator, profit dashboards and a digital menu.

Lead-generation engine

2026

Node.js · Google Maps data · automated website audits

- Collected 178,000 business listings across Italy and audited their websites automatically, producing 71,000 leads with a missing, broken or outdated site.
- Added scoring to surface high-end businesses by category, rating and review volume.

Brand sites and landing pages

2026

Le New-Yorkais · Sol Companion · fashion and home stores

- Le New-Yorkais: brand website, admin panel and franchise landing page. Sol Companion: landing page for an expat-services company (React 19, Tailwind 4).
- Store pages for fashion and home brands, a delivery app with a map view, stock tools and QR menus.
